

Seasons Colour hunt.

Season: _____ Date: _____

Take coloured pencils and this worksheet out with you.
Walk around you garden or school grounds and find some coloured flowers.
Try and find the same colour pencil.
Then colour one of the squares that colour.
Continue around your garden colouring one square for every flower that
colour.
Next cut out all the coloured squares.
Arrange them so that all the same colours are next to each other and make a
spectrum so the colours seem to blend from one to another.
Look at the range of colours you have collected.
